Sub: - Proposal for construction of Temporary Modular Structure at the roof level of CSIR-IICB (Mentor).

Sir,

With reference to our office letter of even No. dated 10th October, 2013 regarding construction of Temporary Modular Structure at the roof level of CSIR-IICB (Mentor), we are eagerly waiting for your kind in principle approval so that we may process to engage any P.M.C for further course of action at this end.

This may kindly be treated as extremely urgent keeping in view of the acute crisis of accommodation at the Mentor Institute for NIPER-Kolkata.

With kind regards,

Yours faithfully,

(Asish Kr. Banerjee)

"Please examine and sort out with mentor institute" — Secy (Pharma)

Director, Indian Institute of Chemical Biology (II&CB), the mentor institute of NIPER, Kolkata has written to Secretary (Pharma) regarding construction of modular class rooms for NIPER, Kolkata on the roof of mentor institute. The Advisory committee of NIPER, Kolkata held a meeting on 23.9.2013 and decided in favour of construction of modular structure as the only solution to overcome extreme space crises of NIPER, Kolkata.

2. This is long pursued proposal of NIPER, Kolkata. Recently revised inputs and justification was sought, which may be seen at page no. 332/c and 315-318/c. NIPER, Kolkata envisages huge savings over the years keeping in view the high renting cost. It has proposed to get the work done from EPIL, a Govt. of India enterprise at CPWD rates.

3. The IFD observations at page 66/c may kindly be seen. It seems to support this proposal subject to availability of fund. Currently around Rs. 40 lakhs are available in GIA-Capital head. Balance funds may be available through enhancement at RE stage 2013-14 which is already under consideration of IFD. As the last option, the same may be availbe in next financial.

4. In view of the communication received from the NIPER and its mentor institute, the need of basic infrastructural requirement for the national institute cannot be over emphasized. On the other side, it appears land allocation is going to take time (and it can't be said to be in advance stage as observed by IFD) as the Govt. of W.B has unexpectedly demanded for Rs. 30.10 crore (page. 332/c) for external infrastructural development of the land against as the decision of Central Cabinet. Further, time taken in identifying builder agency and construction of building may also have to taken into account.

5. At this state the II&CB, the mentor institute has found modular structure as the only solution at this stage and requested for 'in principle' approval of Deptt. (page. 339/c). As regards the final estimated cost, NIPER, Kolkata has stated that the same may be ascertained only after the engagement of PMC.

6. In view of the above, it appears:

- IFD may take up the issue of enhancement of Rs. 2.00 crore for NIPER, Kolkata at RE stage with due priority.

- IFD may concur 'in principle', considering the proposal, apart from availability of funds, so that the same may be placed before the next Steering Committee meeting. It is obvious, the sooner the approval is provided the longer the structure will be utilized. We may apprise this to Secretary (Pharma) in view of his directions as above.

Discussion: The matter may be kept before coming steering committee meeting for approval.
